REVISED: 4/4/2017

The following list represents the Ohio recognized Conformity Assessment Bodies created in accordance with the provisions of section 114 of the Ohio Building Code (OBC) and the Residential Code of Ohio (RCO). The list is intended for use by certified building departments where the OBC and RCO require testing, inspection, labeling or grademarking of materials or assemblies. Where a certified building department receives reports from a laboratory or inspection agency or is required by this code to check for labeling or grademarking, the building department shall review this list to determine if the report, label or grademark is from one of the recognized bodies listed herein. The contents of this listing to the Ohio Administrative Code are not adopted material but is recognized by the Board of Building Standards and provided as a reference for users.

[All conformity assessment bodies indicated herein are required to maintain current contact information and accreditation status with the Board. Where a building official finds inconsistent information, the board of building standards shall be notified to address such issues with the conformity assessment body to promote an accurate listing. All conformity assessment bodies are required to renew tri-annually from the effective date of July 1, 2014. Applications shall be submitted prior to July 1, 2017. Applications for renewals or changes in accreditation status or other information may be accessed as posted on the Board's website at: http://com.ohio.gov/documents/dico_210.pdf.]
