

## STATE PURCHASES FOR THE FIRE SERVICE

The State Fire Marshal's office has worked with the State of Ohio Department of Administrative Services to promote and make available special contracts and pricing for items that Fire Departments need to purchase without a requirement to write specifications and go through the lengthy bidding process. The ability to purchase items listed with DAS allows not only for money savings but also saving time for Ohio's fire service. These purchases include large ticket items but also small hardware type items. Some of those items along with the vendors who make this pricing available are listed below. All of the items available through DAS are listed on the State of Ohio DAS website.
