

Ohio Board of Building Standards Recognized Conformity Assessment Bodies

Revised: March 26, 2021

The following lists represent the Ohio recognized conformity assessment bodies created in accordance with the provisions of Section 114 of the Ohio Building Code (OBC) and the Residential Code of Ohio (RCO). These lists are regularly updated for new and revised recognitions by the Board.

Conformity assessment bodies are listed by category and are recognized by the Board of Building Standards in accordance with Ohio Administrative Rule 4101:7-6-01 titled, Criteria for Board Recognition of Accreditation Bodies, Conformity Assessment Bodies, And Industry Trade Association Certification Programs, effective January 1, 2018.

These lists are used by certified building officials for verification of the accreditation status of conformity assessment bodies where the OBC and RCO require testing, inspection, labeling or grademarking of materials or assemblies, and where those reports from such bodies are reviewed and approved by the building official on a project by project basis for building code compliance as required by the Ohio Board of Building Standards.

Underlined agencies listed below have renewed their Board recognitions based on their current accreditation status for the 2020 triannual renewal cycle. Any bodies having not renewed for the 2020 Renewal shall submit their information to the Board as soon as possible to ensure continued listing by the Board.

Accredited bodies are subject to a triannual renewal where the next expiration deadline is set for **July 1, 2023**.

Any newly secured accreditations, renewals or changes in accreditation status or other pertinent data changes of the accredited body shall be submitted to the Board in a timely manner to ensure the accuracy of the Boards database. These changes shall be provided by the accredited body to the Board using the application form located at: http://com.ohio.gov/documents/dico_210.pdf
